

Mr. Fred Hill, Chairman  
D.C. Board of Zoning Adjustment  
441 4th Street, NW, Suite 210  
Washington, DC 20001

**Re: BZA Case Number 20697: 4103 Davis Place, NW  
Letter of Support for Zoning Application**

Dear Chairman Hill and Members of the Board:

As a property owner or resident living near the site of the above-referenced project, I am writing to support the developer's application for special exception approval for new residential development in the RA-1 zone. I have reviewed the plans and discussed the project with the applicant, and I believe that renovating the existing building on the site and creating two new units in the existing cellar space will greatly benefit the surrounding neighborhood.

The project will sensitively rehabilitate and restore the existing building, which is currently very dated, and will result in upgraded units for the new residents and a much-improved exterior. The project will maintain the existing scale and setbacks provided by the original building, while creating better outdoor access via the new patios and roof terraces. In sum, the project will result in a more attractive building overall and will greatly enhance this block of Davis Place, making a positive contribution to the neighborhood and surrounding area.

Accordingly, I support the application for special exception relief and urge you to approve the application to allow for the project to proceed as proposed.

Thank you for your consideration.

Respectfully,

By:
